

PS Boost

PROTEIN • PERFORMANCE • POTENTIAL

Pitura Seeds is proud to introduce the next high protein yellow pea - PS Boost. We are excited to deliver new opportunities and profit potential to farmers through our relationships with end use processors in the protein market.

VARIETY HIGHLIGHTS

- High yielding
- High protein
- Very good resistance to seed coat breakage
- Early maturity
- Medium vine length
- Good lodging resistance
- Very good resistance to powdery mildew
- Good resistance to fusarium wilt

Boost your protein.
Boost your performance.
Boost your potential.
